Sofa

lagom

Designer: Alp Nuhođlu Category: Sofa, Armchair
Environment: Indoor Country of Production: Turkey

Product Details

The main construction is beech or ash hardwood frame structure. Seat and backrest are made from CNC cut plywood. The elastic column is used for the seat. Soft foam is used for the seat and back foam. Silicon fiber sheet is used before upholstery to provide more comfort. The fixed cushioned backrest supports the body for a healthy posture. The 110-degree angle between the seat and backrest stands out as a lean yet powerful detail of design as an aesthetic accent.
